**2006 INVESTMENT POLICY**

**I. POLICY STATEMENT**

The San Luis Obispo County Treasurer shall prudently manage County funds and funds of local agencies in the combined pool pursuant to the defined objectives which, in the order of priority, are safety, liquidity, and yield, while in compliance with laws and policies.

The purpose of this written Investment Policy (*IP*) is to clearly state the guidelines and standards established by the San Luis Obispo County Treasurer for the prudent investment of the combined pool, define the objectives of managing the combined pool, and maintain internal controls and reporting requirements.

The funds are managed with a high degree of care and prudence. Though all investments contain a degree of "risk," the proper exercise of prudence, the maintenance of a high level of ethical standards, and the proper delegation of authority reduces the potential for any realized loss.

This *IP* establishes the standards under which the County Treasurer shall conduct business with financial institutions with regard to the investment process. These standards establish the basis for the investment program.

**II. SCOPE**

This policy is intended to cover all investment activities under the direct authority of the County Treasurer. The County maintains a combined pool with cash and investments which provide cash flow for the funding needs of the participants. Participants include County departments, agencies, schools, and special districts. A list of all participants is maintained by fund through the County Auditor-Controller's enterprise financial system. Normal banking processes, standards, and relationships are defined by the California Government Code (GC) and are not a part of the *IP*.

**III. OBJECTIVES**

The primary objectives **in order of priority** are safety, liquidity, and yield, while maintaining compliance with federal, state, and local laws and regulations.

**A. SAFETY**

The combined pool shall be managed in a manner that ensures the preservation of capital. The objective is to minimize credit risk and interest rate risk.

**1. Credit Risk**

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

**a. Custodial Credit Risk**

Custodial credit risk for investments is the risk that in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party.

Frank L. Freitas, CPA  
San Luis Obispo County Treasurer

**2006 INVESTMENT POLICY**

---

(III. OBJECTIVES – Continued)

This type of credit risk can be minimized by:

- (1) Pre-qualifying custody financial institutions.
- (2) Requiring custodian to hold securities in the County Treasurer's name.
- (3) Holding applicable securities in the County Treasurer's vault.

**b. Concentration of Credit Risk**

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer.

This type of credit risk can be minimized by:

- (1) Limiting investments to the safest types of securities.
- (2) Diversifying the portfolio.

**2. Interest Rate Risk**

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Interest rate risk may be minimized by structuring the portfolio so that securities mature to meet cash flow requirements for ongoing operations, and thereby avoiding the need to sell securities on the open market prior to maturity.

**B. LIQUIDITY**

The combined pool shall remain sufficiently liquid to meet all operating requirements. This will be accomplished by structuring the portfolio so that maturities meet cash flow requirements. The combined pool shall include marketable securities to assist in meeting unanticipated cash requirements.

**C. YIELD**

Each purchase made shall be subject to meeting the requirements of safety, liquidity, and competitive pricing.

**D. COMPLIANCE**

This *IP* is written to be in compliance with federal, state, and local laws and regulations. The combined pool is managed in compliance with this policy and applicable law. Whenever laws change, any affected section in this policy shall automatically change in application to conform to law.

**IV. STANDARDS OF CARE**

**A. PRUDENCE**

The County Treasury shall manage the combined pool pursuant to the "Prudent Investor Standard" (GC §27000.3(c)):

Frank L. Freitas, CPA  
San Luis Obispo County Treasurer

**2006 INVESTMENT POLICY**

---

(IV. STANDARDS OF CARE – Continued)

When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, the county treasurer or the board of supervisors, as applicable, shall act with care, skill, prudence, and diligence under the circumstances then prevailing, specifically including, but not limited to, the general economic conditions and the anticipated needs of the county and other depositors, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the county and the other depositors. Within the limitations of this section and considering individual investments as part of an overall investment strategy, investments may be acquired as authorized by law.

Investment personnel, while exercising due diligence and acting in compliance with federal, state, and local laws and regulations in accordance with the County Treasurer's written policies and procedures, and this *IP*, shall be relieved of personal responsibility for credit risks provided that deviations from expectations are reported in a timely manner. This could involve reporting a credit rating downgrade on an investment held by the Treasury. Often such credit downgrades foreshadow looming credit risks. Such information should be reported immediately to the County Treasurer and Assistant Treasurer.

**B. DELEGATION OF AUTHORITY**

California Government Code authorizes the County Treasurer to deposit, invest, and provide safekeeping for funds held in the County Treasury. The County Treasurer may delegate this authority to one or more deputy Treasurers, including the Assistant Treasurer, or other qualified management level employee; or to a qualified investment service organization.

No person may engage in an investment transaction except when delegated to do so by the County Treasurer and only as provided under the terms of this policy and the procedures established and approved by the County Treasurer. A list of authorized County investment personnel is maintained with authorized financial dealers and institutions. The County Treasurer shall maintain a system of internal controls to regulate the activities of investment personnel.

**C. ETHICS AND CONFLICTS OF INTEREST**

Individuals performing the investment function and members of the County Treasury Oversight Committee (CTOC) shall maintain the highest standards of conduct. Each person performing the investment function and members of the CTOC must maintain their independence and not have actual conflicts of interest. In addition, they shall avoid the appearance of having conflicts of interest or having lack of independence. Therefore, County Treasury investment personnel and members of the CTOC are subject to the following prohibitions and

- c. Investment personnel shall not accept gifts or gratuities from any bank, broker, dealer, or any other person, firm, or organization with which the County conducts business. Exceptions may be made for minor items of advertising and other items of minimal value with the approval of the County Treasurer.

**2. Disclosures**

Investment personnel shall disclose any material interest in financial institutions with which they conduct County business. They shall further disclose any personal financial/investment positions that could create the appearance of lack of independence.

Nothing in this *IP* supersedes any County ordinance or State law which regulates conduct. This policy may set standards higher than those established by ordinances or other laws.

**V. AUTHORIZED FINANCIAL DEALERS AND INSTITUTIONS**

**A. SELECTION STANDARDS**

The County Treasurer, in selecting financial institutions for the investment of funds, shall consider and monitor the credit worthiness of each institution. The County Treasurer shall approve each institution maintained on the authorized list which he determines is in the best interest of the County. In addition, organizations selected for the list must meet the following criteria:

1. Listed as a “Primary Dealer” by the Federal Reserve Bank of New York, or
2. A Nationally or State Chartered Bank with assets over five billion dollars (\$5,000,000,000), and has received an overall rating of not less than “satisfactory” in its most recent evaluation by the appropriate federal financial supervisory agency of its record of meeting the credit needs of California’s communities, including low and moderate income neighborhoods, pursuant to governmental regulations, or

**E. DELIVERY VS. PAYMENT**

All trades, where applicable, shall be executed by delivery vs. payment (DVP). This ensures that securities are deposited in the eligible financial institution prior to the release of funds.

**VII. INTERNAL CONTROLS**

An internal control structure shall be established and maintained that is appropriate for the circumstances. The internal controls shall be designed to provide reasonable assurances that the combined pool assets are protected.

**B. INTERNAL CONTROL STANDARD**

1. Separation of transaction authority from accounting and record keeping.
2. Daily investment activity and preparation of investment tickets and trade instructions to custody shall be handled by designated investment personnel.
